

Estimates

Estimates	When would I use Estimates?	
<p>Estimates is a price transparency tool that offers you:</p> <p>Eligibility Checks Automatically verify eligibility before upcoming appointments.</p> <p>Cost Estimates Provide accurate patient cost estimates, even for treatments that span multiple visits, facilities, providers, and payers.</p> <p>Up-front Patient Payments Reduce patient A/R by collecting patient payments at or before time of service via SMS message or email.</p> <p>Payer Contract Management Model and manage payer contracts, rates and fee schedules that power Rivet Estimates.</p>	Day-to-day issues you encounter	How Rivet Estimates helps
	<p>I have a full schedule of patient appointments that need eligibility checks.</p>	<p>→ Easily fit Rivet into your existing workflow by automating eligibility days before your patients come to the office.</p>
	<p>It's hard to create accurate estimates for patients with complicated circumstances such as multiple payers, treatments, providers and facilities, so I can't provide a good estimate for them.</p>	<p>→ Estimate patient responsibility for patients with multiple levels of coverage.</p> <p>Create a single comprehensive estimate for patients who will see multiple providers; have multiple visits; or receive care comprising professional, technical and/or ASC services.</p>
	<p>I can't quickly answer my patients' questions about how much treatment will cost.</p>	<p>→ Offer patients accurate, on-the-spot estimates and provide full or partial payment options through PHI compliant text messages or email.</p>
	<p>I want to reduce patient A/R days and increase patient collection.</p>	<p>→ Increase patient collection and reduce liability up front with same-day billing.</p>

“With changing coverages, deductibles, and eligibility, it can be hard to produce truly accurate estimates at scale. With Rivet, **running eligibility and estimates is a quick, one-stop shop.**”

— Kellie Ickowski, Practice Administrator, Audubon Women's Medical Associates
